Description

- Payment and Rights: In exchange for the discounted pricing, the NCI grants Epitomics all commercial rights to any antibodies and hybridomas developed under this agreement for research, diagnostic and/or therapeutic applications. No clone(s) will be provided to the Collaborator. The collaborator shall share non-proprietary testing data with Epitomics at each phase for project evaluation. Collaborator data may be used for product data sheets and marketing materials.

- Provisions for Early Termination: Collaborator may request to cancel the project at any time during the project timeline. Collaborator must request the termination in writing and will be invoiced for any work done up to the time of termination.

- Additional Antibody Services: Should the Collaborator desire additional services or antibody production in excess of that included in this contract, Epitomics will provide said services at additional cost as outlined in Appendix B.

Terms & Conditions

- This quote is being offered to the Customer listed above and is offered as a confidential proposal. Unauthorized distribution of this quote outside of the listed institution or Purchase Orders with shipment outside the listed country is prohibited.
- This quote is a binding offer upon receipt of purchase order from Customer. Pricing on this Quote and/or any discounts given are good only until the "Expires" date specified above and may be subject to completion of a Service Agreement between Customer and Epitomics.
- Unless otherwise agreed in writing by the supplier all invoices are payable within thirty (30) days of the date of invoice, in the currency of the invoice, drawn on a bank based in US or by such other method as is agreed in advance by the Supplier.
- All prices are not inclusive of TAX which shall be payable in addition by the Customer at the applicable rate.
